

# FILCONS 70 $\mu$ m

Using CTSV FILCONS with different mesh sizes, you can easily remove cell clumps and large particles from your sample after tissue dissociation and ensure that you have a uniform single-cell suspension.

The strainers have smart features, such as:

- Compatibility with 5 (FILCONS) and 50 ml (FILCONS MAX) conical tubes
- Prevent clogging with optimized ventilation
- Compact size for sterile handling
- Syringe fitting for bigger volumes, cup type for smaller volumes
